**Subject:** West Lake report

Hi Chris,

I've attached a DRAFT version of the Robert Alvarez report on the West Lake Landfill, under embargo until Thursday. I'll send you the final version when I get it.

If someone from EPA R7 would be available to comment, it would be great if we could schedule that in advance. Something like 1 p.m. on Thursday would be ideal (the press conference with Alvarez is at 11 a.m.). This would be for a brief (~20 min) recorded phone interview, to respond to some of the arguments Alvarez is making about the EPA and West Lake in the report.

Looking ahead: the producers of our live daily call-in show, Saint Louis on the Air, are definitely interested in doing a show about West Lake at some point. They'd like Administrator Brooks to participate, if possible. If that is something he'd be willing to do, can you please contact the senior producer Mary Edwards ([medwards@stlpublicradio.org](mailto:medwards@stlpublicradio.org), (314) 516-6163) to talk about scheduling? If he's declining to participate, could you please let her/me know as soon as possible?

Thank you,

Veronique

P.S. We're having issues with our e-mail this morning, so can you please let me know when you

receive this?

Véronique LaCapra, Ph.D.
